

How Good  
Do You Have To Be?  
Romans 10:1-4  
(Pew Bible p. 1134)

Some issues are too important to be left only to our own opinion.

10:1 - The issue 'on the table:' Salvation.

10:2 - Caution: You can be deeply religious yet desperately lost.

10:3 - Self-effort acceptance with God is your default approach.

10:4 - Jesus meets the standard for all who trust in Him.

How good do you have to be?

God-good.

*As long as we understand that man's righteousness and God's righteousness are different, not in degree but in kind, we can come out at the right end of our discussion.* Donald Grey Barnhouse
